

# Brainstorming & Idea Prioritization Template

|         |                          |               |                                     |
|---------|--------------------------|---------------|-------------------------------------|
| Date    | 02 october 2026          | Maximum Marks | 3 Mark(s)                           |
| Team ID | 6ab63709856a6a91bc38dc02 | Project Name  | Import Data using Transform Maps (S |

## Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

| S.No | Team Member    | Idea / Suggestion                                     | Category       | Group No. |
|------|----------------|-------------------------------------------------------|----------------|-----------|
| 1    | Mohamed Arsath | Import employee data from Excel using Import Sets     | Data Import    | 1         |
| 2    | rithish kumar  | Use Transform Maps with coalesce to avoid duplicates  | Data Transform | 1         |
| 3    | Ajay           | Create import set tables as staging area for raw data | Data Staging   | 1         |
| 4    | Gokul          | Build reports and dashboards on imported data         | Reporting      | 2         |
| 5    | Mohamed Arsath | Create custom Employee Test (u_employee_test) table   | Table Design   | 1         |
| 6    | Rithish Kumar  | Configure field mapping in Transform Maps             | Field Mapping  | 1         |

## Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

| Group | Final Idea                                                | Feasibility | Importance | Priority | Selected |
|-------|-----------------------------------------------------------|-------------|------------|----------|----------|
| 1     | Import Excel data via Transform Maps into u_employee_test | High        | High       | 1        | Yes      |
| 2     | Reports & Dashboards on imported employee records         | High        | Medium     | 2        | Yes      |
| 3     | Manual record entry directly into ServiceNow forms        | Low         | Low        | 3        | No       |
