

Scalability & Future Plan

Date	02 october 2026	Maximum Marks	1 Mark(s)
Team ID	6ab63709856a6a91bc38dc02	Project Name	Import Data using Transform Maps (S

Current System Limitations

S.No	Limitation	Impact	Priority
1	Single data source format (Excel only)	Cannot directly ingest CSV, JDBC, or API feeds	Medium
2	Manual import trigger	Requires admin to manually upload file and run transform	Low
3	Basic 1:1 field mappings	Complex multi-table relations not yet configured	Medium

Scalability Plan

S.No	Aspect	Current State	Proposed Upgrade
1	Data Sources	Single Excel file	Support CSV, JDBC, and REST data sources
2	Target Tables	Employee Test table	Multi-table data model (Departments, Locations)
3	Automation	Manual upload & transform	Scheduled periodic imports via Scheduled Jobs
4	Data Validation	Standard field mapping	Pre-import validation scripts on field values

Future Roadmap

Phase	Planned Feature	Target Timeline	Expected Impact
Phase 1	Scheduled automated imports	Q1 2027	Eliminate manual trigger requirement
Phase 2	Data validation rules on transform	Q2 2027	Ensure data validity before loading into tables
Phase 3	Multi-table organizational import	Q3 2027	Import departments and locations alongside employees
Phase 4	REST/JDBC data source integrations	Q4 2027	Import records directly from external enterprise databases
